

Request for Proposal (RFP): “National Expert for Text Book on Myanmar Mangrove Management and Conservation of Climate Resilience”

Under the Denmark-Myanmar Country Programme 2016-2020, the Forest Department (FD) is currently implementing a five year(2018-2023) project of “**Climate Change Adaptation and Resilience-building through rehabilitation and sustainable management of mangrove forests in coastal areas of Myanmar (The CCA Engagement)**” with the support of Climate Envelop fund mainly in Rakhine State and Tanintharyi Region to rehabilitate the degraded mangroves and to build the resilience of the coastal communities to adapt the climate change.

The Project is requesting a National Expert to submit a proposal to compile a text book on technical aspects of mangrove management and conservation with social and participatory methods for a holistic approach. The audience of the book will be broad-based and cross sector, illustrating the importance of mangroves for coastal resilience across sectors and coastal stakeholders.

Duration of Assignment: Expected to start in August 2019, and expected to be completed by the end of August 2020.

Main Tasks and responsibilities:

1. Hold an inception meeting with the CCA Engagement team and key stakeholders of the Forest Department
2. Drafting of Book Manuscript
3. Completion consultation to present and discuss the final draft of the book manuscript with key stakeholders from the Forest Department and other relevant agencies
4. A public book launch event

Outputs from the consultancy:

1. Structure (e.g Table of Content) of the book, as agreed by the Inception Consultation Meeting
2. Myanmar Mangrove Management and Conservation for Climate Resilience
3. Launch event presentation

Requirements:

The Expert will be a renowned national mangrove expert, with degrees in forestry, natural resources management, environment, and similar ones, and then long-term experience in mangrove research, conservation and management in Myanmar.

Deadline for Submission: 21st June, 2019 (16:00 Hrs.) Potential Service Providers can obtain Application package, including detailed TOR, by sending an email to the Project Director, FDCCA Project, Watershed Management Division, Forest Department (watershedfdmonrec@gmail.com) and CC: to Mr. Anders Poulsen, International Technical Advisor (afpoulsen@gmail.com). Submissions received after the deadline will not be considered. Only selected SPs will be contacted for further contracting process.

Request for Proposal (RFP): “National Expert for Development of Myanmar Mangrove Field Guide Book and Supporting Website Design”

Under the Denmark-Myanmar Country Programme 2016-2020, the Forest Department (FD) is currently implementing a five year(2018-2023) project of “**Climate Change Adaptation and Resilience-building through rehabilitation and sustainable management of mangrove forests in coastal areas of Myanmar (The CCA Engagement)**” with the support of Climate Envelop fund mainly in Rakhine State and Tanintharyi Region to rehabilitate the degraded mangroves and to build the resilience of the coastal communities to adapt the climate change.

The Project is requesting a National Expert to submit a proposal to combine the conventional field guide book and to support to design an online version that can be used in an interactive manner in the field. The guide book will be based on up-to-date technical and scientific data and information on mangrove species in Myanmar.

Duration of Assignment: Expected to start in August 2019, and expected to be completed by the end of August 2020.

Main Tasks and responsibilities:

1. Hold an inception meeting with key stakeholders of the Forest Department and other agencies working with coastal issues and planning
2. Drafting of the field Guidebook and associated drafting of field guide website
3. Hold a completion consultation to present and discuss the final Guidebook draft, and support website design with key stakeholders from the Forest Department and other relevant agencies
4. Organize a public launch event with a presentation of the Field Guidebook and support to prepare the associated website

Outputs from the consultancy:

1. Structure of Field Guidebook and website, as agreed by the Inception Consultation Meeting
2. Myanmar Mangrove Field Guidebook
3. Myanmar Mangrove Field Guide website
4. Launch event presentation for the Myanmar Mangrove Field Guidebook and support to prepare a website design

Requirements:

- The Expert will be a renowned national mangrove expert, with degrees in forestry, natural resource management and environment and long-term, scientific and mangrove research, conservation and management in Myanmar.

Deadline for Submission: 21st June, 2019 (16:00 Hrs.) Potential Service Providers can obtain Application package, including detailed TOR, by sending an email to the Project Director, FDCCA Project, Watershed Management Division, Forest Department (watershedfdmonrec@gmail.com) and CC: to Mr. Anders Poulsen, International Technical Advisor (afpoulsen@gmail.com). Submissions received after the deadline will not be considered. Only selected SPs will be contacted for further contracting process.
